There are also notable entries from teammates Alessio Piccini with Tribe One Motorsport and Daniel Vasile with KCS Racing.

The MINI category has also seen growth, with 96 drivers between Gr.3 and Under 10. There is also strong participation in OK-Junior, with 42 drivers coming from 22 nations, not only in Europe but also from Japan, Turkey, China, and Indonesia, including the English driver Jesse Phillips with Fusion Motorsport, who recently won the international race for the OK-N Junior Road to the OK-N World Cup.

Participation in the X30 Junior and Senior categories is also positive, with 55 drivers.

Beyond Italy, with 93 drivers, Sweden is the foreign country with the highest number of entries, reaching 17 drivers. The most numerous team is the Team Driver with 18 drivers. In addition to representation from all of Europe, there are drivers from Australia, Canada, China, Indonesia, Israel, Japan, Mexico, Panama, Paraguay, Peru, Singapore, South Africa, Turkey, the United Arab Emirates and the United States.
